## **Erratum**

"Influence of C4 vegetation on the 13CO2 discrimination and isoforcing in the Upper Midwest, United States", T.J. Griffis, J.M. Baker, S.D. Sargent, M. Erickson, J. Corcoran, M. Chen, and K. Billmark (Global Biogeochemical Cycles, 2010, 24, GB4006, doi:10.1029/2009GB003768)

## Please note the following correction to paragraph 5

"In the upper Midwest, United States, C4 and C3 rotation ecosystems (i.e.,corn and soybean, respectively) dominate the landscape, covering about 45 million hectares."

## **Additional Note**

In 2010 corn and soybean production in the United States was 164 million acres or about 67 million hectares.
